

FOR THE LONG RUN

ADL

DISPLAY LOADER

The display loader is suitable for the automatic set-up and filling of counter displays. The machine can be quickly adjusted to accommodate a different format by exchanging the format sections. The machine is protected and meets current CE standards.

The display loader can set up and fill up to 15 or 30 displays per minute (depends on machine model and product). The display loader can be positioned as a standalone unit or as part of a full production line, for example, in combination with box stacking machine.

Options

- Closing unit top flap
To close displays with a top flap

Technical specifications

- Speed:
 - ADL 15: Max. 15 displays / minute
 - ADL 30: Max. 30 displays / minute
- Machine dimensions:
 - ADL 15: 248 x 132 x 168 cm (L x W x H)
 - ADL 30: 382 x 173 x 209 cm (L x W x H)
- Machine weight:
 - ADL 15: 600 kg
 - ADL 30: 1330 kg
- Power consumption: 0.8 kW
- Compressed air: 6 bar / 255 ltr/min
- Box dimensions:
 - Length: Min. 50 mm Max. 150 mm
 - Width: Min. 50 mm Max. 150 mm
 - Height: Min. 8 mm Max. 40 mm
